Projects

PROJIVE -

PHP (Laravel APIs), Bootstrap, JavaScript (AJAX), Tailwind CSS *[Link](#)*

- Independently developed complete UI for a B2B internal dashboard using modern responsive design principles.
- Integrated AJAX-based dynamic data fetching, reducing reloads and improving UX by 40%.
- Worked closely with Backend (Laravel) team to ensure API connectivity and seamless data flow.

MARKET MANTRA

REACT.JS | Tailwind *[Link](#)*

- Took over frontend responsibilities on a **MERN-based** stock trading & learning platform..
- Worked with a 10-member team, including designers, BAs, and devs, to build the admin panel that powers the mobile app interface.
- Ensured pixel-perfect **UI** implementation based on Figma designs and built responsive email templates using Tailwind CSS.

Experience

FULL TIME : *[Vervali Systems](#)*   **Dec 2024 - Present | Vasai**

- Spearheaded the development and implementation of multiple projects from inception to completion, ensuring high-quality deliverables.
- Collaborated closely with cross-functional team members to meet project deadlines and achieve organizational goals.
- Leveraged core technologies, including JavaScript, PHP, and React JS, to build scalable and efficient solutions.
- Played a key role in designing and architecting projects from scratch, ensuring robust and maintainable codebases.

INTERNSHIP: *[Vervali Systems](#)*   **July 2024 – Dec 2024 | Vasai**

- Working on frontend projects using HTML, CSS, and JavaScript.
- Optimizing website **Speed,** fixing **Bugs, and** implementing new **Features**
- Collaborated closely with the graphic designer, digital marketer, and CEO to align design, branding, and product goals, contributing actively to the project team.
